## Roof Coatings

Whatever your roofing system, our variety of roof coatings provide you with the long-term performance you desire.

- Restoring an existing roof system with Republic's roof coatings saves an average of 30% versus a new roof or retrofit
- Republic's 10 and 12-year warranties ensure long-term protection

### Aluminum roof coatings

*For metal roofs*

- Economical solution for rustproofing and waterproofing
- One-coat application
- 15% metallic content for high reflectivity
- Energy Star rated product
- Material and labor warranties available

### Acrylic roof coatings

*For metal, built-up, modified bitumen or weathered single ply roofs*

- Energy Star rated product
- Fibrated formula bridges small gaps
- Elastomeric quality allows the coating to move with the roof
- One-coat application reduces installation costs
- Available in custom and 12 standard colors
- Material and labor warranties available

### Urethane roof coatings

*For built-up, modified bitumen, weathered single ply, foam or concrete roofs*

- Maintains existing fire ratings of previous roof system
- Provides 85% reflectivity to increase energy savings
- Material and labor warranties available

## Wall Coatings

Stop painting your facilities' walls every 3 to 5 years and start coating them instead. Republic's Solargard Hy-Build acrylic wall coating offers three times the protection as paint. This fibrated acrylic coating is applied in one-coat at 16 wet mils versus the average coat of paint at 3 to 5 mils, saving you money with less labor.

- One-coat application reduces labor costs
- 10-year material and labor warranty ensures long-term performance
- Fibrated formula bridges small gaps
- Available in 16 standard and custom colors
