Thank you for selecting Republic products! To assist you in installing Republic's Membrane System in accordance with Republic's specifications and to provide Technical Service Support including contractor training, on-site project inspections and final project acceptance requirements, your cooperation in completing the attached paperwork is essential.

Republic's NOA in a single document provides (1) complete project information, (2) warranty selection and (3) request for inspection. Your prompt attention in providing this information will assist us in timely processing of the project, avoid delays in material shipment and scheduling of requested Technical Service inspections. Please type or use a black or blue ink ball point pen to fill out this form providing for information to "copy" more clearly if transmittal is via fax.

NOTICE OF AWARD (NOA) / REVIEW / APPROVAL

- < Pages 1 and 2 of the NOA are to be faxed or mailed to Republic for review and approval **prior to material shipment**. The NOA form should be received at least two weeks prior to the project starting date. If the NOA contains incomplete information and/or deviates from our current details and specifications, you will be contacted by Republic's Technical Service staff.
- < Accuracy is important when completing the NOA. The warranty will be printed using the information as submitted on this form. Changes to a warranty after it is issued may delay final payment to you from the building owner.
- < Upon approval by Republic Technical Service, a job number will be assigned and a countersigned copy of the NOA will be forwarded to you.

NOTE: If a material only warranty is requested, upon approval of the NOA and material shipment, the warranty will be issued and delivered.
